LOW PROFILE
Perfect for limited clearance and off-highway

COMPACT DESIGN
LOW PROFILE DRAIN SYSTEM

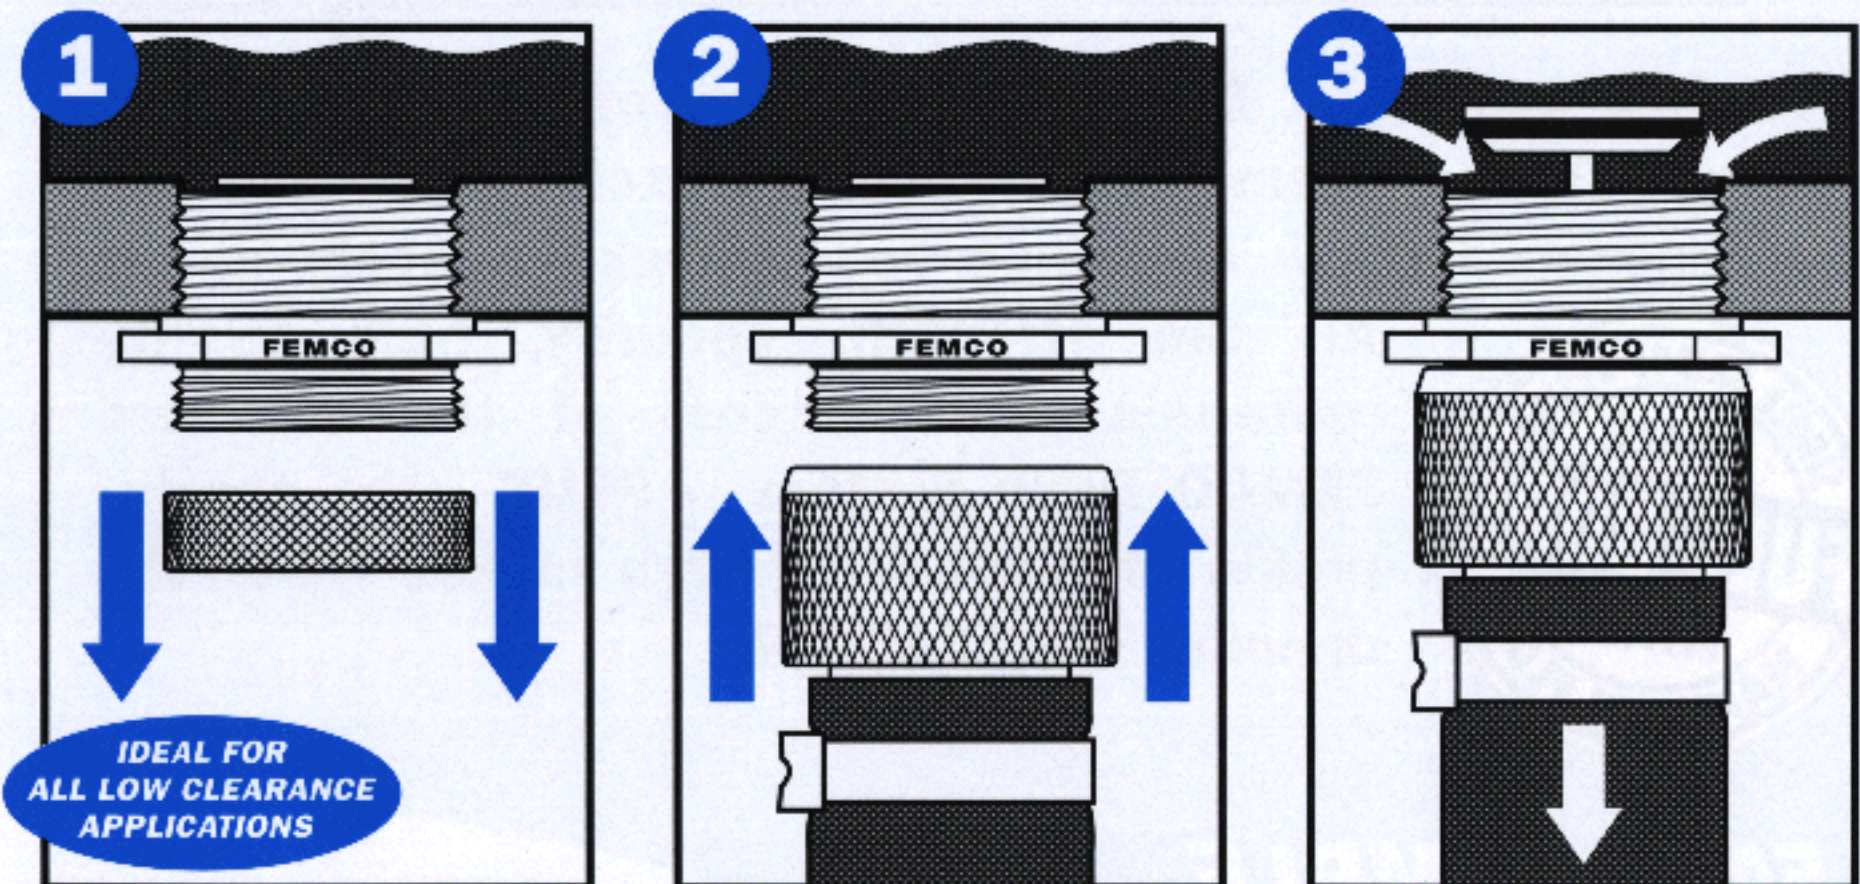

DUST CAP

O-RING SEALS

VITON O-RING
Compatible with all fluids

WITH FEMCO COMPACT DESIGN YOUR NEXT OIL CHANGE IS AS EASY AS 1 - 2 - 3

1. **FEMCO COMPACT DESIGN** simply replaces the factory plug. No special tools to install. Dustcap ensures clean, smooth operation.
2. **REMOVE DUST CAP** - the spring loaded pop-up valve remains closed until you connect the drainer.
3. **TO OPEN VALVE** just thread the drainer onto the COMPACT DESIGN fitting. Drain hot oil safely and quickly by gravity or suction.
